M.Com.
Programme Structure

The M.Com. Programme is divided into two parts as under. Each Part will consist of two Semesters.

		Semester	Semester
Part - I	First Year	Semester I	Semester II
Part – II	Second Year	Semester III	Semester IV

The schedule of papers prescribed for various semesters shall be as follows;

Papers	Marks		Total Marks
	Written	Internal Assmnt.	

SEMESTER I			
Paper 101 : Organization Theory and Behavior	70	30	100
Paper 102 : Economic & Statistical Analysis	70	30	100
Paper 103 : Business Communication	70	30	100
Paper 104 : Financial Management and Policy	70	30	100
Total			400
SEMESTER II			
Paper 201 : Advanced Cost Accounting	70	30	100
Paper 202 : Business Environment	70	30	100
Paper 203 : Quantitative Techniques for Business Decisions	70	30	100
Paper 204 : Marketing Management	70	30	100
Total			400

Part II : Semester III			
Paper 301 : Industrial law	70	30	100
Paper 302 : Managerial Accounting	70	30	100
Paper 303 : International business	70	30	100
Paper ---- : Elective I (Paper 1)	70	30	100
Total			400
Part II : Semester IV			
Paper 401 : Corporate law	70	30	100
Paper 402 : Human Resource Management	70	30	100
Paper 403 Dissertation & Viva	70	30	100
Paper ---- : Elective I (Paper 2)	70	30	100
Total			400
GRAND TOTAL			1600

Elective Groups:

Any one group from the available electives to be selected at the commencement of

- M.Com. Semester III.

Notes:

- The elective group in the Semester IV will remain the same as the ones selected in Semester III.
- Once a group has been selected, no change in selected groups will be allowed later.
- While the first paper of the selected group will be taught in Semester III, the second paper of the selected group will be taught in Semester IV.

List of Elective Groups

The Department will announce in the beginning of the respective semester, the list of elective groups which will be offered during the semester depending upon the faculty members and the demand of electives.

Group A: Finance

Paper 304 Financial Market and Institutions

Paper 404 Security Analysis and Portfolio Management

Group B: Marketing

Paper 304 Advertising and Sales management

Paper 404 Consumer Behaviour

Group C: Taxation Management

Paper 304 Corporate Tax Planning

Paper 404 Principles and Practice of Taxation and Indian Tax System

Group D: Human Resource Management

Paper 304 Human Resource Development

Paper 404 Training and Development

Group E: International Business

Paper 304 India's Foreign Trade and Investment

Paper 404 Management of International Business Operations

Group F: Applied Economics

Paper 304 Industrial Economics

Paper 404 Applied Econometrics

Group G: Insurance

Paper 304 Insurance Management

Paper 404 Actuarial Practice

Important note – For skill development computer classes, aptitude classes, English speaking class, interview preparation classes would also be provided .

Passing Criteria

- 45 % in each paper
- 2 papers can be carried forward

DIVISION CRITERIA

Successful candidates will be classified on the basis of the combined results of Part -I and Part-II examinations as follows:

Sl. No	Marks	Grading	Division
1	70 percent and above	Grade A+	First Class with Distinction
2	60 percent to 70 percent	Grade A	First Class
3	50 percent to 59 percent	Grade B	Second Class
4	45 percent to 49 percent	Grade C	Second Class
5	Less than 45 percent	Grade D	Fail

SPAN PERIOD

No student shall be admitted as a candidate for the examination for any of the Parts/Semesters after the lapse of **four** years from the date of admission to the Part-I/Semester-I of the M. Com. Programme.

ATTENDANCE REQUIREMENT

The students are required to attend tutorials, seminars etc, arranged by the Department/ College from time to time. The minimum percentage of attendance required will be notified by the Department at the commencement of the session.

Program outcome (PO)

PO1: Advanced Knowledge in Commerce & Management :Develops an in-depth understanding of advanced concepts in commerce, finance, taxation, management, and economics.

PO2: Research & Analytical Thinking :Enhances research skills, critical analysis, and problem-solving abilities using qualitative and quantitative techniques.

PO3: Financial & Taxation Expertise : Provides expertise in financial management, investment strategies, and direct & indirect taxation systems.

PO4: Accounting & Auditing Proficiency: Equips students with advanced accounting standards, forensic auditing, corporate governance, and compliance regulations.

PO5: Entrepreneurial & Leadership Skills: Develops business acumen, leadership qualities, and entrepreneurial capabilities for business and startup ventures.

PO6: Technological & Digital Adaptability: Strengthens proficiency in financial technology, e-commerce, digital marketing, and business analytics.

PO7: Global & Ethical Business Practices: Enhances understanding of international trade, corporate ethics, sustainability, and business laws.

PO8: Industry Readiness & Practical Exposure: Prepares students for professional careers in finance, banking, taxation, corporate sector, and academia through internships, case studies, and projects.

Program Specific outcome (PSO)

PSO1: Financial & Investment Decision-Making Enables students to analyze financial statements, assess investment risks, and make strategic business decisions.

PSO2: Corporate & Tax Law Compliance : Equips students with knowledge of corporate laws, GST, income tax provisions, and compliance mechanisms.

COURSE, CONTENTS AND READING LISTS OF M.COM. PROGRAMME

M.Com -1st SEMESTER

Semester I

Course 101: ORGANIZATIONAL THEORY AND BEHAVIOUR

Time: 3Hrs

Marks: 100 (70+30)

Lectures: 65

Subject Objectives:

1. To provide an understanding of the development and significance of organizational behavior and its various approaches.
2. To analyze different models explaining individual behavior, focusing on motivation and reward systems.
3. To equip students with the skills to develop effective communication strategies and conflict resolution techniques.
4. To enhance knowledge of group dynamics and foster teamwork through practical team-building skills.
5. To explore various leadership styles and their impact on decision-making within an organization.

Content

- Organizational Theories and Behaviour: Classical, Neo-classical and Contemporary. Authority, Power, status, formal and informal structure. Flat and Tall structures. Bureaucratization of organisations. Organisational Behaviour-concepts, determinants, models, challenges and opportunities of OB. Transaction cost and organizational behaviours Contributing disciplines to the OB. Individual Behaviour: Foundations of individual behaviour, values, attitudes, personality and emotions. Theory X and Theory Y, Chris Argyris behaviour patterns, Perceptual process.
- Group Decision making and Communication: Concept and nature of decision making process, Individual versus group decision making, Nominal group technique and Delphi technique, models of communication, communication effectiveness in organizations. Feedback, TA, Johari Window.
- Motivation: Need hierarchy, Maslow's Need Hierarchy, Two factor theory, Contemporary theories of motivation (ERG, Cognitive evaluation, goal setting, equity) expectancy model. Behavior modification, Motivation and organisational effectiveness.
- Leadership, Power and Conflict: Concept and theories, Behavioral approach, Situational approach, Leadership effectiveness, Contemporary issues in leadership. Power and conflict. Bases of Power, power tactics, sources of conflict patterns, levels and conflict resolution strategies.
- Organisational Culture, Organisational Development and Stress Management: Concept and determinants of organisational culture, Organisational Development:

concept and intervention techniques. Individual and organisational factors to stress, consequences of stress on individual and organisation, management of stress.

- Case Studies: Some cases of real business world are required to be discussed.

Suggested Readings:

1. Robbins; S.P., Organisational Behaviour (13th edition), Prentice Hall of India Pvt. Ltd., New Delhi, 2008.
2. Luthans, Fred, Organisational Behaviour, 11th Edition, McGraw Hill International, New York, 2007.
3. Robins S.P., Organisational Theory: Structure Design and Application, 3rd ed., Prentice Hall of India Pvt. Ltd., 2007.

Subject outcome:

CO1: To the development of the field or organizational behaviour and explain the approaches.

CO2: To analyse and compare different models used to explain individual behaviour related to motivation and rewards.

CO3: To identify the processes used in developing communication and resolving conflicts.

CO4: To explain group dynamics and demonstrate skills required for team building.

CO5: To identify the various leadership styles and the role of leaders in a decision making process.

Course Outcomes (COs)	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PSO1	PSO2
CO1: Development of the field of organizational behaviour and explain the approaches.	3	2	0	1	2	1	1	1	0	0
CO2: Analyze and compare different models used to explain individual behaviour related to motivation and rewards.	2	3	0	1	3	1	2	1	0	0

CO3: Identify the processes used in developing communication and resolving conflicts.	2	2	0	1	3	1	2	2	0	0
CO4: Explain group dynamics and demonstrate skills required for team building.	2	2	0	1	3	1	1	2	0	0
CO5: Identify the various leadership styles and the role of leaders in a decision-making process.	2	2	1	1	3	1	2	1	1	0

Semester I
Course 102: ECONOMIC & STATISTICAL ANALYSIS

Time: 3Hrs

Marks: 100 (70+30)

Lectures: 65

Subject Objectives:

1. To develop an understanding of key economic data, including price-quantity relationships, supply and demand, GDP, and per capita income.
2. To explain market functions, pricing mechanisms, and various market structures.
3. To analyze product pricing policies in relation to market conditions, competition, and monopoly regulations.
4. To apply quantitative models for solving real-world economic and statistical problems.
5. To utilize professional statistical tools for data analysis and decision-making.
6. To understand sampling techniques, distribution concepts, and their application in experimental design and variance analysis.

Content

- Probability and Expectation: Approaches to probability. Addition, multiplication and Bayes Theorem, Mathematical Expectation. Probability Distribution: Binomial, Poisson, Exponential, Beta and Normal Distributions.

- Statistical Decision Theory: Risk and uncertainty, Expected value approach Marginal analysis, Decision tree.
- Sampling and Sampling Distributions: Methods of sampling, Sampling distribution of a statistic and its standard error. Point Estimation and interval estimation, Properties of an estimator. Testing; Power of a test, Large sample tests for proportions, means and standard deviations. Small sample tests –t and F tests. Design of Experiments and analysis of variance.
- Consumer Behaviour: Determination of demand. The type of goods and the demand function. Indifference curve analysis, Indifference preference, Slutsky's analysis of demand, Revealed preference, theory of attributes, snob appeal, band wagon effect and the demand function. Inter – temporal demand function. Demand for durable goods.
- Production and Cost: Production function, Concept of productivity, isoquants ridge lines, isoclines, is cost lines, Expansion path and Multiproduct firm, Empirical production function: Cobbe- Douglas, CES, VES and Translog. Estimation of production function.
- Cost function: Classification of costs, short run and long run cost functions. Law of variable proportion, return to scale, scale economies, scope economies. Estimation of cost function, Problem of estimating cost and production functions. Duality between production and cost function. Efficiency and the firm.
- Price and output relationship under different market structures: Perfect Competition, Monopoly, Discriminating monopoly. Monopolistic competition, oligopoly, Game theory and oligopolistic behaviours, duopoly, Bilateral monopoly. Relating the structure with market situations. Competition and markets, Social cost of Monopoly, regulatory aspects of monopoly.
- Pricing practices: Economics of advertisement costs, Barrier to entry. Basis pricing, Transfer Pricing, Dumping and other practices. Pricing and wages. Minimum wage and price structure.
- Factor pricing: Elements of factor pricing, labour pricing, Demand and supply of factors of production. Profit theories and profit management.

Suggested Readings:

1. Levin, R.I. and D.S. Rubin, Statistics for Management, Prentice-Hall of India.
2. Spiegel, M.R. Theory and Problems of Statistics, Schaum Publishing Company.
3. Aczel, Amir D., Complete Business Statistics, McGraw Hill, 1999.
4. Kazmeir Leonard J., Norval F. Pohl, Basic Statistics for Business and Economics, McGraw Hill International (2nded.)
5. Koutsyiannis, A., Modern Microeconomics, Macmillan Press Ltd. (1998 Reprint).
6. Varian, Micro-Economic Analysis (ed. 3), Norton, 1992.
7. Pindyck Robert S. and Daniel L. Rubinfeld, Micro Economics, Third Edition, Prentice Hall of India, New Delhi, 1996.

8. Madala G.S. and Ellen Miller, Micro Economics, Theory and Applications, McGraw Hill, Book Company, New York.
9. Gould, John P., Edward P. Lazear, Micro-Economic Theory, Richard D. Irwin, Inc., Homewood Illinois.
10. Sen Anindya, Micro-Economics: Theory and Applications, Oxford University Press, New Delhi, 1999.
11. Tirole J. The Theory of Industrial Organisation, Cambridge MIT Press, 1988.

Subject outcome:

CO1: To understand the economic data such as relationship between the quantity and price, supply and demand, economic output, GDP, per capita income of nations etc.

CO2: Explain the function of market and prices with their structures of market & mechanisms.

CO3: To enable the knowledge of product pricing policy relating structures with market situations, competition and regulatory aspects of monopoly.

CO4: Students will create quantitative models to solve real world problems in appropriate contexts.

CO5: To effectively use professional level technology tools to support the study of statistics.

CO6: To ascertain the sampling and sampling distribution of a statistics for designing experiments and analyse of variance.

Course Outcomes (COs)	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PSO1	PSO2
CO1: Understanding economic data (GDP, per capita income, etc.)	3	2	2	1	1	1	2	2	2	1
CO2: Explain market functions, price mechanisms, and structures.	3	2	2	1	1	1	2	2	2	2
CO3: Knowledge of product pricing, competition, and	2	3	3	2	1	1	3	2	3	3

regulatory aspects.										
CO4: Create quantitative models for real-world problem-solving.	2	3	2	3	2	2	2	3	3	2
CO5: Effectively use technology tools for statistical analysis.	1	2	1	2	1	3	1	2	2	1
CO6: Understanding sampling, designing experiments, and variance analysis.	1	3	1	3	1	3	2	2	3	2

Semester I
Course 103: Business Communication
Marks: 100 (70+30)

Time: 3Hrs.

Lectures: 65

Subject Objectives:

1. To provide an overview of the fundamentals of business communication.
2. To enhance the understanding and application of grammar in professional settings.
3. To outline the principles of effective organizational communication.
4. To develop proficiency in business writing strategies and best practices.

Content

1. Communication:
 - Definition , Scope , Method,
 - Objective & Importance of Communication.
2. Types of Communication,
 - Direction of Communication.
 - Process of Communication.
3. Barriers & Gateways of Communication.
4. Non Verbal Communication:
 - Body Language, Postures & Gestures , Attire, Appearance,
 - Handshake Behavior, Timing, Smile and Organizational Body Language.
5. Corporate Communication:
 - Format & Informal Communication Networks,
 - Grapevine, Group Discussion, Mock Interviews, Seminars.

6. Writing Skills, Business Letter,
 - Parts of Business Letter, Memo Format, Notice.
7. Public Speaking & Negotiation.
8. Legal Aspect of Business Communication.
9. Mass Communication:
 - Advertising, Publicity, Public Relation, Direct Marketing.
10. Business Communication in new Millennium:
 - Yesterday, Today & Tomorrow,
 - New Trend in Business Communication, Business Process Outsourcing (BPO/Call Centre)
11. Case Studies and Seminars.

Subject outcome:

CO1: To provide and overview of prerequisite to business communication.

CO2: To put in use the basic mechanics of Grammar.

CO3: To provide an outline to effective organisational communication.

CO4: To impact the correct practices of the strategies of effective business writing.

Course Outcomes (COs)	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PSO1	PSO2
CO1: Overview of prerequisites to business communication.	3	2	1	1	2	2	2	2	2	1
CO2: Apply basic mechanics of grammar.	2	1	1	1	2	1	1	1	1	1
CO3: Outline effective organizational communication.	3	2	2	2	3	2	3	2	2	2
CO4: Correct strategies for effective business writing.	3	2	2	2	3	2	3	2	2	2

Semester I
Course 104: FINANCIAL MANAGEMENT AND POLICY

Time: 3Hrs.

Marks: 100 (70+30)

Lectures: 65

Subject Objectives:

1. To provide foundational knowledge of Business Finance, Accounting, and Management.
2. To apply financial concepts for ratio analysis and capital budgeting.
3. To familiarize students with analytical techniques in financial management.
4. To understand the role and significance of financial functions in business.
5. To develop expertise in managing and allocating financial resources.
6. To explain fundamental financial concepts, including the time value of money.

Content

- Financial Management: Nature, objectives and scope; financial decision-making and types of financial decisions; role of a finance manager in a firm and Agency problem. Risk-Return framework for financial decision-making.
- Capital Budgeting Decisions: Nature and Kinds of Capital Budgeting Decisions; techniques of evaluating capital budgeting decisions, capital budgeting decisions under constraints and with multiple objectives using Mathematical Programming Models; Capital budgeting decisions under inflation; Capital budgeting decisions under uncertainty and their evaluation using Statistical Decision Theory. Analysis of Real life capital budgeting decisions-some case studies.
- Capital Structure: Concept; financial leverage and its impact on the valuation of firm; theories of capital structure, optimal capital structure; determinants of capital structure.
- Dividend Policy: Dividend and its form; cash dividend, right and bonus shares, and buy-back of shares; theories of dividend policy and their impact on the value of a firm; types of dividend policy-constant pay-out ratio and constant dividend amount policies; determinants of dividend policy and some case studies.
- Working Capital Planning and Management: Basics of working capital planning and management; estimation of working capital requirement; working capital policy and its management of cash, accounts receivables and inventories; Mathematical and Simulation Models for Working Capital Decisions; financing working capital.
- Instruments of Long Term & Short Finance.

- The empirical evidences on theories and the case studies relevant for above topics are required be discussed.

• **Suggested Readings:**

- Van Horne, James C., Financial Management and Policy, Prentice Hall of India 12th Ed, 2008.
- Pandey I. M., Financial Management, 9th Ed. Vikas Publishing.
- Ross S. A., R.W. Wester field and J. Jaffe, Corporate Finance, 7th Ed. McGraw Hill.
- Brealey R.A. and S.C. Myers, Principles of Corporate Finance, McGraw Hill, 6th Ed.
- Damodaran, A, "Corporate Finance: Theory and Practice". John Wiley & Sons, 2nd Ed., 2001.

Subject outcome:

CO1: To develop knowledge about Business Finance and the background of Accounting and Management.

CO2: To integrate the concept and apply the financial concepts to calculate ratios and do the capital budgeting.

CO3: To acquaint the students with the basic analytical techniques and methods of financial management of business firms.

CO4: To demonstrate an understanding of overall role and importance of the finance function.

CO5: To develop knowledge on the allocation, management and funding of financial resources.

CO6: To explain the concepts of fundamental financial concepts, especially time value of money.

Course Outcomes (COs)	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PSO1	PSO2
CO1: Knowledge about Business Finance and Accounting.	3	2	3	2	1	1	1	2	3	2
CO2: Apply financial concepts to calculate ratios & capital budgeting.	2	3	3	2	2	2	1	3	3	2

CO3: Acquaint with analytical techniques in financial management.	2	3	3	3	2	2	1	3	3	2
CO4: Understanding the role and importance of finance function.	3	2	3	2	2	1	2	2	3	2
CO5: Knowledge on allocation, management & funding of financial resources.	3	2	3	2	2	2	2	3	3	3
CO6: Explain fundamental financial concepts (time value of money).	3	3	3	3	2	2	2	3	3	2

M.Com - 2ND SEMESTER

Semester II

Course 201: ADVANCED COST ACCOUNTING

Time: 3Hrs.

Marks: 100 (70+30)

Lectures: 65

Subject Objectives:

1. To provide students with a strong foundation in management accounting concepts, methods, and techniques.
2. To apply advanced manufacturing cost accounting techniques in business scenarios.
3. To understand the theory of constraints and its impact on organizational restructuring.
4. To develop competence in using management accounting for decision-making and control.
5. To gain expertise in cost allocation for support departments and the distribution of common costs and revenues.

Content

- Cost Accounting – Nature and Functions; Financial vs. Cost Accounting; Cost vs. Management Accounting; Role of Management Accountant.
- Cost Concepts and Classifications, ActivityBasedProductCosting–Conceptanduses;EmergingCostingApproaches
- Variable and Absorption Costing – Concept, Comparison, Applications of Variable Costing, Preparation of Income Statements
- Cost-Volume-Profit (CVP) Analysis – Contribution Margin; Break – Even Analysis; Profit Volume (P/V) Analysis; Multiple-Product Analysis; Optimal use of Limited Resources
- Managerial Decisions – Managerial Decision Making; Decision Making Process; Differential Analysis; Types of Managerial Decisions – Make/Buy, Add/Drop, Sell/ Process Further, Operate/Shutdown, Special Order, Product-Mix, Pricing Decisions.
- Budgeting – Nature and functions; Preparation of Different Types of Budgets, Fixed Versus Flexible Budgeting.
- Standard Costing – Concept, Advantages and Disadvantages; Analysis of Variance; Materials, Labour, Overhead; Managerial Uses of Variances
- Responsibility Accounting and Divisional Performance Measurement – Advantages and Disadvantages of Divisionalisation; Concept of Responsibility Accounting; Responsibility Centres – Cost Centre, Revenue Centre, Profit Centre, Investment Centre, Responsibility Performance Reporting

Suggested Readings:

1. Atkinson Anthony A., Rajiv D. Banker, Robert Kaplan and S. Mark Young, Management Accounting, Prentice Hall,2001.
2. Horngreen Charles T., and Gary L. Sundem and William O. Stratton, Introduction to Management Accounting, Prentice Hall of India,2006.
3. Drury Colin, Management and Cost Accounting, Thomson Learning,2001.
4. Garison R.H. and E.W. Noreeb, Managerial Accounting, McGraw Hill, 2000.
5. Ronald W. Hilton, Managerial Accounting, McGraw Hill Education,2006.
6. JawaharLal, Advanced Management Accounting, Text, Problems and Cases, S. Chand & Co., New Delhi,2009

Subject outcome:

CO1: To enable students to acquire sound knowledge of concepts, methods and techniques of management accounting.

CO2: To demonstrate an understanding of an ability to apply advanced manufacturing cost accounting techniques.

CO3: To acquire the knowledge in theory of constraints, and how to identify the constraint and restructure the rest of the organisation.

CO4: To make the students develop competence with their usage in managerial decision making and control.

CO5: To enable the knowledge of cost allocation of support departments and allocation of common costs and revenues.

NOTE: - This course is to be taught with contemporary issues relevant in the environment of Indian business with notable examples and illustrations.

Subject outcome:

CO1: To identify and evaluate the complexities of business environment and their impact on the business.

CO2: Analyse the relationships between government and business and understand the political, economic, legal and social policies of the country.

CO3: Gain knowledge about the operation of different institutions in international business environment.

CO4: Analysing current economic conditions in developing emerging markets, and evaluating present and future opportunities.

CO5: To develop entrepreneurial awareness among students.

Course Outcomes (COs)	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PSO1	PSO2
CO1: Identify & evaluate complexities of business environment.	3	2	3	2	2	1	2	2	3	2
CO2: Analyse relationships between government & business.	2	3	2	2	1	1	3	2	3	3
CO3: Knowledge of institutions in the international business environment.	3	2	2	2	2	2	3	2	3	2
CO4: Analyse economic conditions in emerging markets.	3	3	3	2	2	2	3	3	3	2
CO5: Develop entrepreneurial awareness.	2	2	2	1	3	2	2	3	3	2

Semester II

Course 203: QUANTITATIVE TECHNIQUES FOR BUSINESS DECISIONS

Subject objective:

1. Apply quantitative approaches to problem-solving, including measures of central tendency and dispersion.
2. Solve linear programming problems using graphical and simplex methods.
3. Understand and apply hypothesis testing methods appropriately.
4. Analyze data using statistical and mathematical techniques for business decisions.
5. Utilize quantitative models for effective decision-making.

Content

- Introduction: Quantitative approach to management decision making. Linear Programming: Mathematical formulation of linear programming problems and their solution using graphic approach and simplex algorithm. Duality Sensitivity analysis.
- Transportation: Solving the problem, Testing optimality MODI method. Cases of unbalanced problems, degeneracy, maximization objective, multiple solutions and prohibited routes.
- Assignment: Solving the problem. Cases of unbalanced problems, multiple optimum solutions, maximisation objective and unacceptable assignments.
- Integer Programming: Problem Formulation and solution.
- Inventory Control: Techniques of selective control, Economic order quantity (EOQ) models- classical, gradual replenishment without shortages, price breaks and planned stockouts, Deciding optimum safety stock and reorder level.
- PERT/CPM: Networking with one estimate of time. Networks with three estimates of time. Time-cost trade-off. PERT/cost. Resource allocation and resourcelevelling.
- Markov Analysis: Brand-switching analysis. Equilibrium conditions.
- Game Theory: Games of purestrategy. Games of mixedstrategy. Dominance.
- Queuing Theory: Elements of a queuing system. Models with Poisson arrival and services rates, single server and infinite and finite population
- Sequencing: n-jobs to be processed on two machines in the same order of machines. n- jobs to be processed on m machines in the same order of machines – by converting it into a two – n machine case. Two jobs to be processed on m machines in the different orders of machines.
- Replacement Analysis: Replacement of capital assets – discrete cases when time value of money is not considered and when time value of money is considered. Replacement of items that fail suddenly.

- Simulation

(The emphasis should be on concepts and application of concepts)

Suggested Readings:

- Levin, R.I., D.S. Rubin and J.P. Stinson, "Quantitative Approaches to Management", 1986, McGraw -Hill.
- Vohra N.D., "Quantitative Techniques in Management", 3rd Edition, The McGraw Hill companies, 2006.
- Bierman H. Jr, C.P. Bonini and W. H. Hausman, "Quantitative Analysis for Business Decisions", 7th Edition, Homewood, Ill., Irwin 1983
- Taha, Hamdy A., "Operations Research: An Introduction", 8th Edition, Prentice – Hall of India.

Subject outcome:

CO1: Relate a formal quantitative approach to problem solving and decision making and acquire the knowledge about mean, median, mode and measures of dispersion.

CO2: Extend the ability to solve linear programming problems by graphical and simple methods.

CO3: To orient the students to various hypotheses testing methods as to how and where appropriately they can be applied.

CO4: To provide basic knowledge of analysing data using various statistical and mathematical techniques for business decisions.

CO5: To acquaint the students with the use of quantitative models in decision making.

Course Outcomes (COs)	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PSO1	PSO2
CO1: Apply quantitative methods to problem-solving, decision-making, and data analysis.	3	3	2	2	1	2	1	2	3	2
CO2: Solve linear programming problems using graphical and simplex methods.	3	3	2	2	1	2	1	2	3	2
CO3: Apply various	3	3	2	3	1	2	1	2	3	3

Content

- Basic IS-LM frame-work, Asset markets, the demand for and the supply of real balances and their interest elasticities. Implications of modified IS and LM functions on relative efficacy of fiscal and monetary policies. Short and long run aggregate supply and shifts in aggregate supply. Aggregate demand, aggregate supply and the price level. Interaction of aggregate demand and aggregate supply and the determination of real income. Shifts in aggregate demand, demand management policies.
- Exchange rate regimes, foreign exchange markets, Asset choices in an open economy and capital flows. Trade flows, External balances, IS-LM-BOP curve analysis and implications for policy choices.
- Expectations and Economic Behaviour.
- Inflation and unemployment: Impact of unemployment on IS-Curve. Theories of unemployment, types, causes and costs of unemployment. Inflation and unemployment, policy alternatives. Real Business Cycles.
- Macro-economic environment, Economic Growth (Theories in Modern Context) its variables and strategic planning. Macro economic indicators and forecasting of macro-economy. Economic Policies and Macro Economic movements in an open economy.
- Globalisation, Liberalisation and Business environment. Economic Planning and the emerging environment.
- Environmental Laws, Costs and Business Behaviour.
- Consumer Laws, Cost and Business Behaviour.
- W.T.O. and emerging business environment.

Suggested Readings

1. Mankiw, N. Gregory. Principles of Macroeconomics. Cengage Learning
2. Robert J Gordon, Macroeconomics, Pearson Education
3. Branson, William H. Macroeconomic Theory and Policy. HarperCollins India Pvt. Ltd.
4. Rudiger Dornbusch and Stanley Fischer, Macroeconomics. McGraw-Hill Education.
5. Rudiger Dornbusch, Stanley Fischer, and Richard Startz, Macroeconomics. McGraw-Hill Education
6. Oliver J. Blanchard, Macroeconomics, Pearson Education
7. G. S. Gupta, Macroeconomics: Theory and Applications, McGraw-Hill Education
8. Shapiro, Macroeconomic Analysis,
9. Paul A Samuelson, William D Nordhaus, and Sudip Chaudhuri, Macroeconomic, McGraw-Hill Education

Course Outcomes (COs)	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PSO1	PSO2
CO1: Knowledge of concepts, methods & techniques of management accounting.	3	2	3	3	2	2	1	3	3	2
CO2: Apply advanced manufacturing cost accounting techniques.	2	3	3	3	2	2	1	3	3	2
CO3: Knowledge of theory of constraints & organizational restructuring.	2	3	2	3	2	1	1	3	3	2
CO4: Develop competence in managerial decision-making & control.	3	3	3	3	3	2	2	3	3	3
CO5: Knowledge of cost allocation of support departments & common costs.	3	2	3	3	2	2	1	3	3	3

Semester II

Course 202: BUSINESS ENVIRONMENT

Time: 3Hrs.

Marks: 100 (70+30)

Lectures: 65

Subject Objectives:
